

# Interactive workshop to shape the next steps for our integrated shared care record – One Health and Care (OHC)

**Thursday 6 October, 2-4pm, online**

**It's two years since One Health and Care [the Integrated Shared Care Record] launched in Staffordshire and Stoke-on-Trent – enabling health and care organisations to share care records where appropriate to deliver safe, quality services.**

Anyone who is involved in providing direct care is invited to attend this workshop. Together, we will explore how OHC can be further developed for the benefit of staff, service users and non-users.

We want to hear about your experiences of using OHC and your suggestions for further data items to improve your use of OHC. By understanding the challenges you face, we can work together as a system to find a solution.

**Please join us by booking your free place online:**
