What happens if you go to hospital?

Sometimes if people are unwell they might need to go to hospital to get the help they need to feel better.

The Dynamic Support Register will help people who are working with you to make a plan to help you to move back to the community with the support you need.

What happens if you are not on the register?

People working with you will still give you support if you need it but being on the register means that more services will know about your needs.

If services are aware of your needs they will be able to make a support plan more quickly in an emergency.

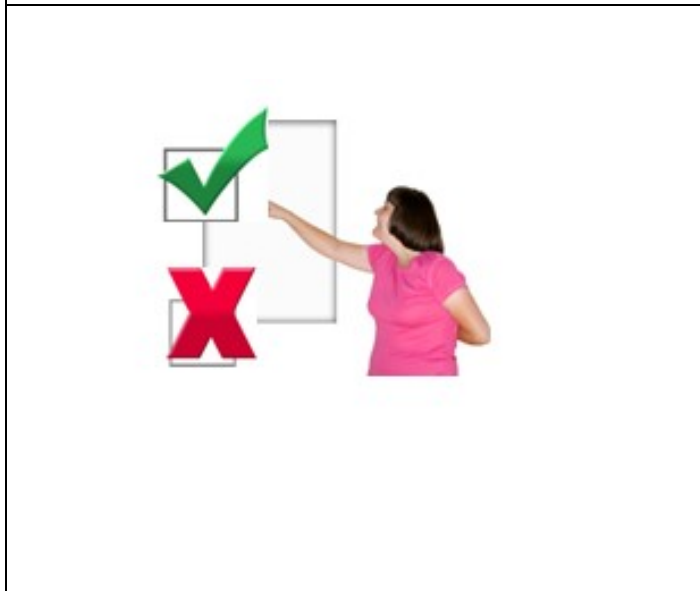

Is the register right for you?

It is a good idea to talk to people who understand your support needs. They will help you understand what the register is about and help you decide if it's right for you.
