

Org Code	Org Name	1) What IT systems and/or digital tools does your ICS use to enable frictionless movement of staff across your ICS to allow flexible and remote working? Please state if your ICS does not currently enable this.	2) Which suppliers provide the digital communication tools that are used across the ICS to enable self-service pathways such as self-triage, referral, condition management and advice and guidance? Please state if your ICS does not currently provide some or all such digital communication tools.	3) Do your ICS-wide clinical systems meet clinical safety standards as set out by DTAC and DCB0129 and DCB0160?	4) Does your ICS have a population health management system that has a fully linked, longitudinal dataset with primary, secondary, mental health, social care and community data? If yes, please state the name of the supplier of this system.	5) Do all your ICS-wide digital transformation projects, programmes and services meet the Technology Code of Practice?	6) Does your ICS have a shared care record that adheres to Professional Records Standard Body's Core Information Standard?	6(a) Please can you also state the supplier of this shared care record, even if it does not currently adhere to the PRSB standard?
----------	----------	---	--	---	---	--	--	--

Clinical IT system manufacturers and healthcare providers do need to conform to DBC0129 and DBC0160 respectively, ensuring IT systems are safe for service users and patients. A DTAC audit by healthcare provider is currently underway nationally, with submissions due mid-December. The results of this audit will provide the evidence as to which suppliers are DTAC compliant and where remedial action is required.
